

Ascom In The Enterprise

ascom

It's all about better outcomes.

You may know Ascom for its workflow solutions in more than 2,000 hospitals across North America. But did you know Ascom solutions are fueling the industries that entertain, nourish and power our lives?

Hotels

Two of New York City's most elite, **boutique hotels** use dozens of Ascom d81 mobile devices to increase **guest service** response time. The devices are also helping keep housekeeping safe by featuring a panic button so staff can call for help if needed.

Manufacturing

A **high-end chocolatier** in North America uses more than 100 Ascom d83 mobile devices in its 900,000 sq-ft **manufacturing facility** in Canada. They help keep workers safe, from notifying of man-down events to monitoring safety risks for ingredients at high temperatures.

Restaurants

Approximately 5,000 Ascom d63 mobile devices are helping managers at 1,800 restaurants keep **front and back of house communication** and curbside service running smoothly at some of the most recognizable and successful **restaurant brands** in full-service dining in North America.

Utilities & energy

Utilities and energy companies with nuclear power plants across the U.S. and Canada turn to Ascom d81 EX mobile devices. They're **intrinsically safe**, designed for highly explosive, volatile environments to communicate through Ascom private network DECT technology in the core of a facility.

Retail

A **major U.S. retailer** is using Ascom's Private Network and Mobility Solution to connect more than 6,000 store associates in more than 100 large box supermarkets. Ascom's solution harnesses AI and mobile technology for **in-store inventory control and e-commerce** to drive a better overall customer experience.

Correctional facilities

Correctional facilities in two U.S. states are relying on Ascom a71 and a51 tracking devices to **make guard rounding faster, safer and documented**. Ascom solutions using sensors and software are helping to monitor more than 5,000 inmates.

Casinos

Hosts at a **California casino** are using more than 100 i62 mobile devices to **take care of VIP customers** before they reach the playing tables.

Processing plants

Approximately 300 Ascom d81 and d83 mobile devices are helping a **poultry processor** in the U.S. control the temperature of machinery to **keep food waste at a minimum**.

*More than
100 integration
partners with testing
and support for
interoperability*

Distributors

Ascom d63 DECT mobile devices combined with Unite software are elevating efficiency for an American company that **manufactures, distributes and markets branded pet food** and other products for the U.S. retail market. This Ascom solution **lets workers communicate quickly to teams across their facility** in an environment where strict manufacturing requirements must be met and safety is paramount.

Oil rigs

Ascom is making a difference in demanding environments, including **oil rigs** that provide upstream oil production. Workers on offshore platforms in the Gulf of Mexico are using a combination of more than 250 Ascom d81 and d83 mobile devices **for an extra layer of safety** for lone workers, as well as team member communications and life-saving notifications.
